This year we will again be running an order of merit for the Stableford events. We have decided to change the format slightly.

This season points will be awarded in relation to the amount of stableford points you score at an event. A player's final placing in the Order of Merit will be decided on the number of stableford points that they gain at a maximum of six events. You can play in as many events that you wish but it will be your best six stableford points totals that will count.

(Eg. Paul Lawrie may play in eight different events. He records 34pts, 26pts, 35pts, 40pts, 12pts, 35pts, 41pts and 16pts at his last event. He will drop his worst two points totals (12pts and 16pts) and therefore have a final total for the Order of Merit of 211 points.)
